

About us

The firm specializes in the manufacture of hard wares, forging and fabrication of various applications like conveyor items, Mill liner bolts for cement plants, pump parts, port trust items, mining components, earth pipes and railway signal point machine - ground connection cable markers. ICF coach components for the Railway Industry. These can be fabricated / forged from mild steel, alloy steel & stainless steel materials which can be processed for heat treatment, electro plating & hot galvanization as per the client specifications.

Earth Pipe:
Used in railway
signaling &
telecommunication
earthing & Hardwares
- All ranges

Component

Special bolts,
nuts & pins made
to specification with
our forgings &
machining.

Ground
connections for
point machines of
railway track signals.

U-clamp, pins,
J-bolts, Buffer spindle,
gland bolts, brake pins,
nuts & washers
of all types.

Railway signal track
parts U-bolts,
U-shackles, chain
shackles for
rail coach, conveyors
& cement plants.
